

BECAUSE WE RECOGNIZE THAT WE ARE THE COMMUNITY
IN WHICH OUR STUDENTS LIVE, LEARN, PLAY AND PROSPER

WE PROMISE

To continually set and reinforce high expectations for the students in our schools, neighborhoods and organizations.

To refrain from judging socioeconomic status and circumstances as a predictor of a student's potential for academic success.

To publicly recognize, reward and applaud academic achievements as much as achievements in other areas.

To empower students with the tools, resources and capacity they need to exert their best effort toward academic success.

To put collaboration above personal or organizational benefit whenever our students have the most to gain.

To remain steadfast and dedicated toward the long-term benefit of uplifting our communities by empowering our youth to finish strong.
